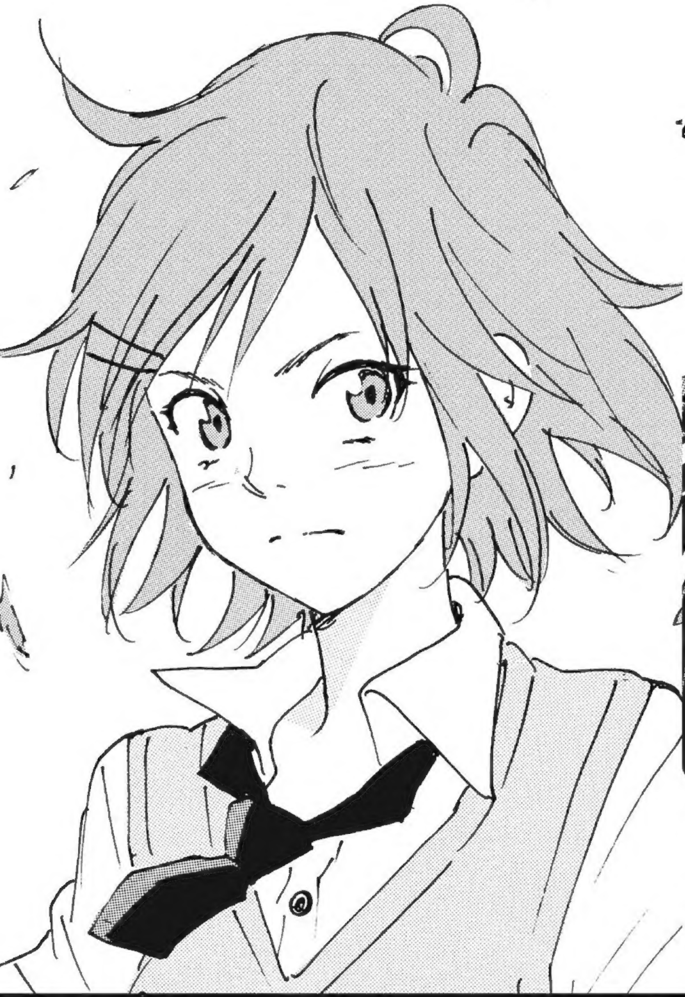
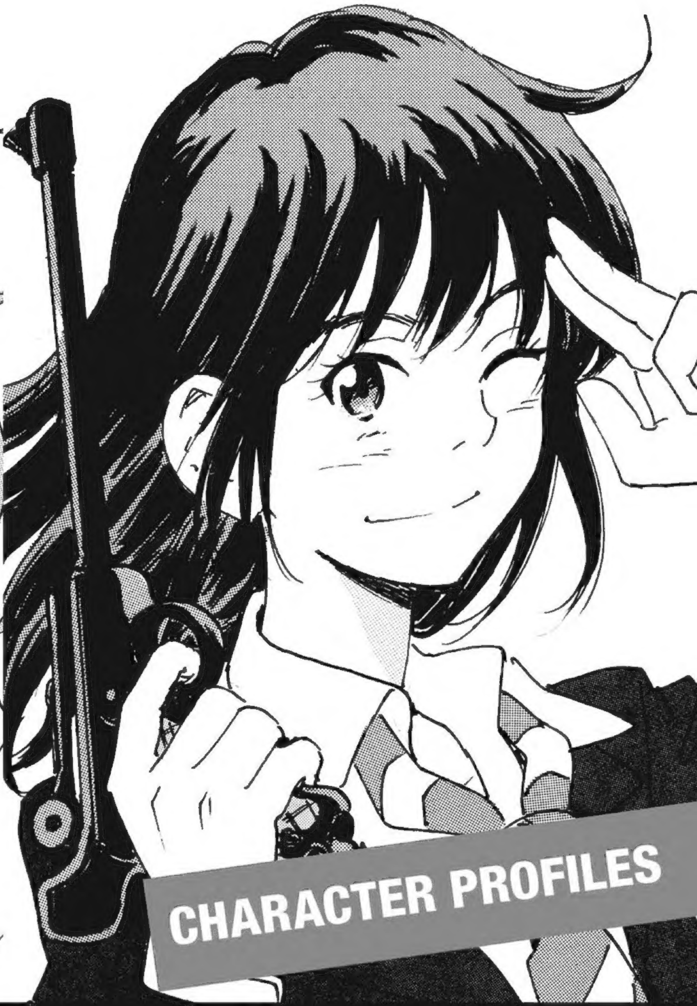
CHARACTER PROFILES





AOI FUKASAKU

(HIGH SCHOOL FIRST-YEAR)

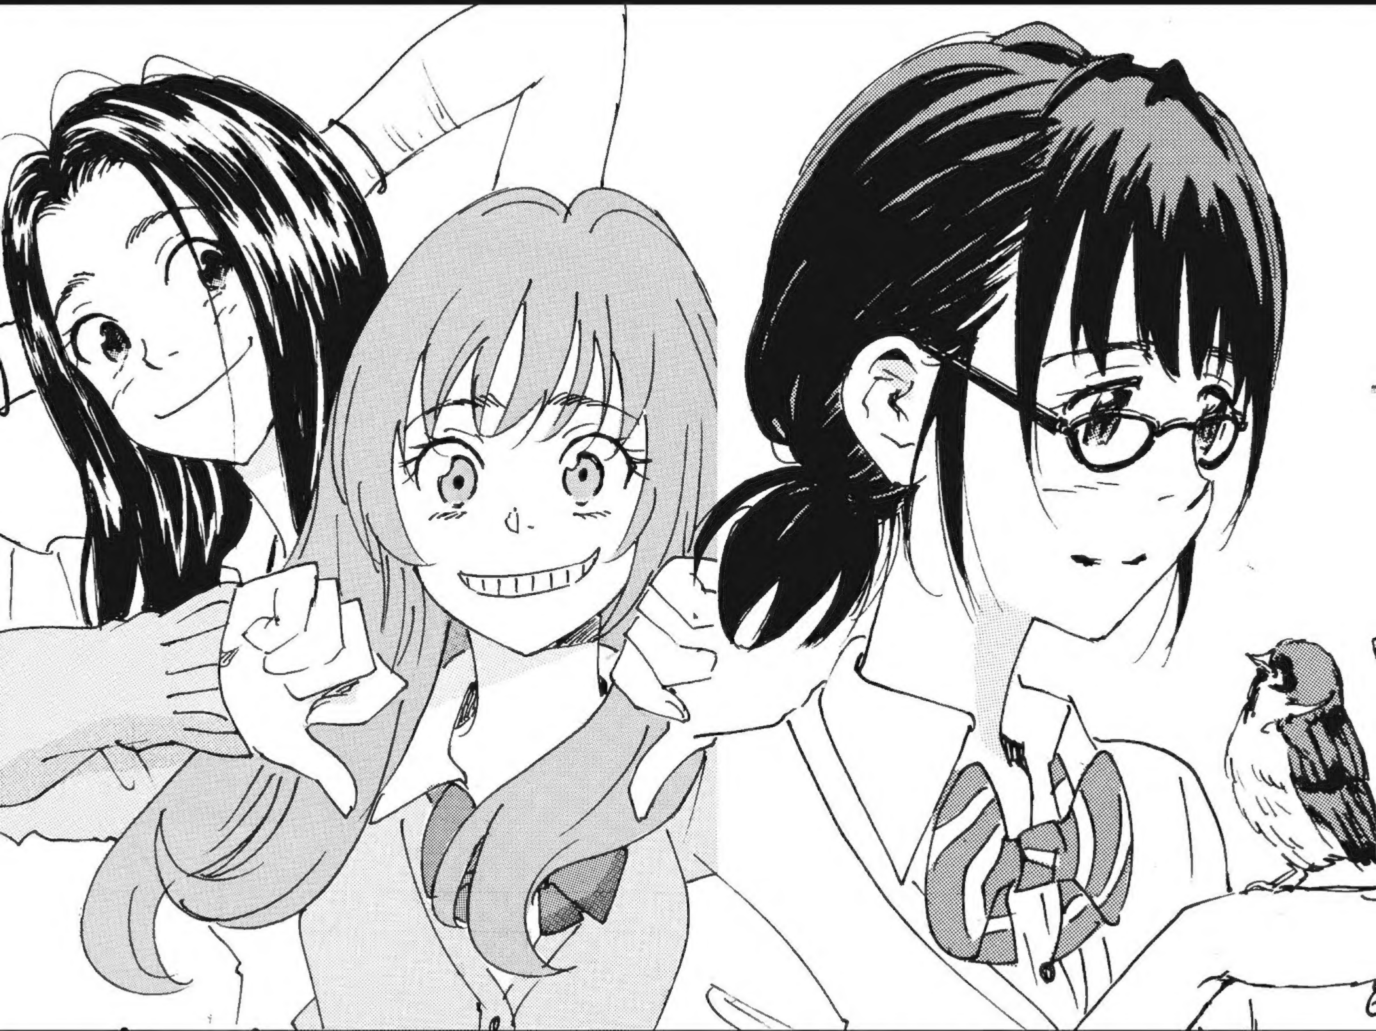
The Medical Unit's cheerful icebreaker. Aoi has a bottomless stomach and a bright personality, but was thought to be a useless, poor student otherwise—except a mysterious power sleeps inside her, as the "complete" Coppelion...

IBARA NARUSE

(HIGH SCHOOL THIRD-YEAR)

Leader of the Coppelion Medical Unit. She possesses staggering athletic ability, and her combat skills are excellent. Relying on her strong conviction to save everyone in Tokyo to give her strength, she leads the search for survivors. Her speech can be a bit rough.

COPP
KEEP OUT



OZU SISTERS

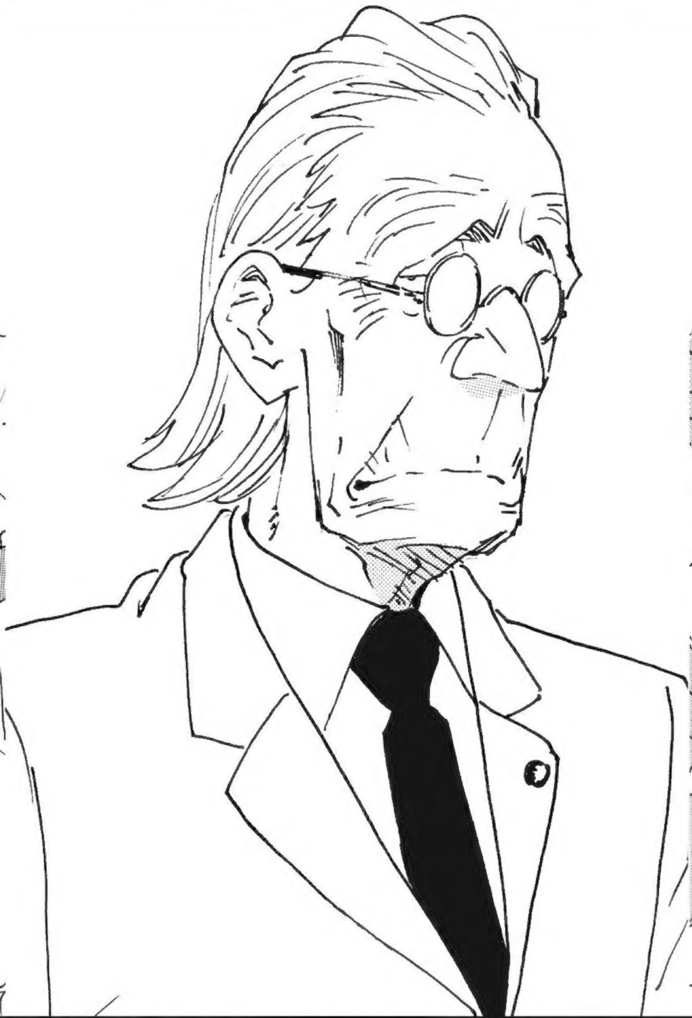
(HIGH SCHOOL THIRD-YEARS)

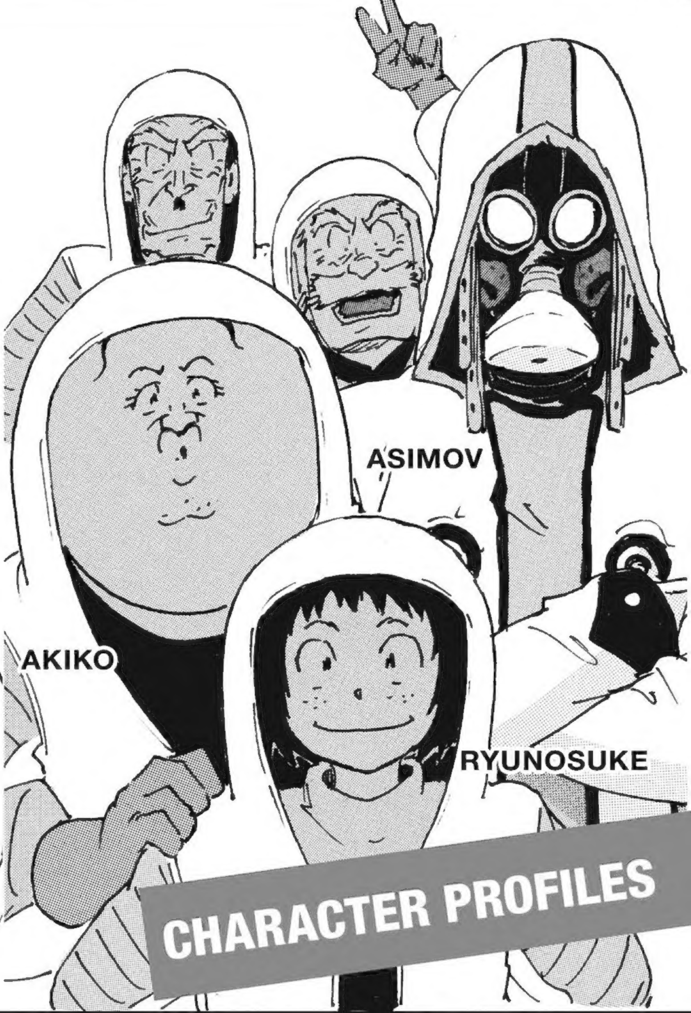
Twin sisters in the Cleanup Crew. Kanon (right), the older sister, can generate lightning, and Shion (left), the younger sister, has super strength. They're both incredibly violent, but reformed after their battle with Ibara.

TAEKO NOMURA

(HIGH SCHOOL FIRST-YEAR)

The Medical Unit's comforting member. She's quite knowledgeable and has superhuman senses (she wears glasses to reduce her eyesight to 10% of its true strength, because she sees too far). She loves animals.





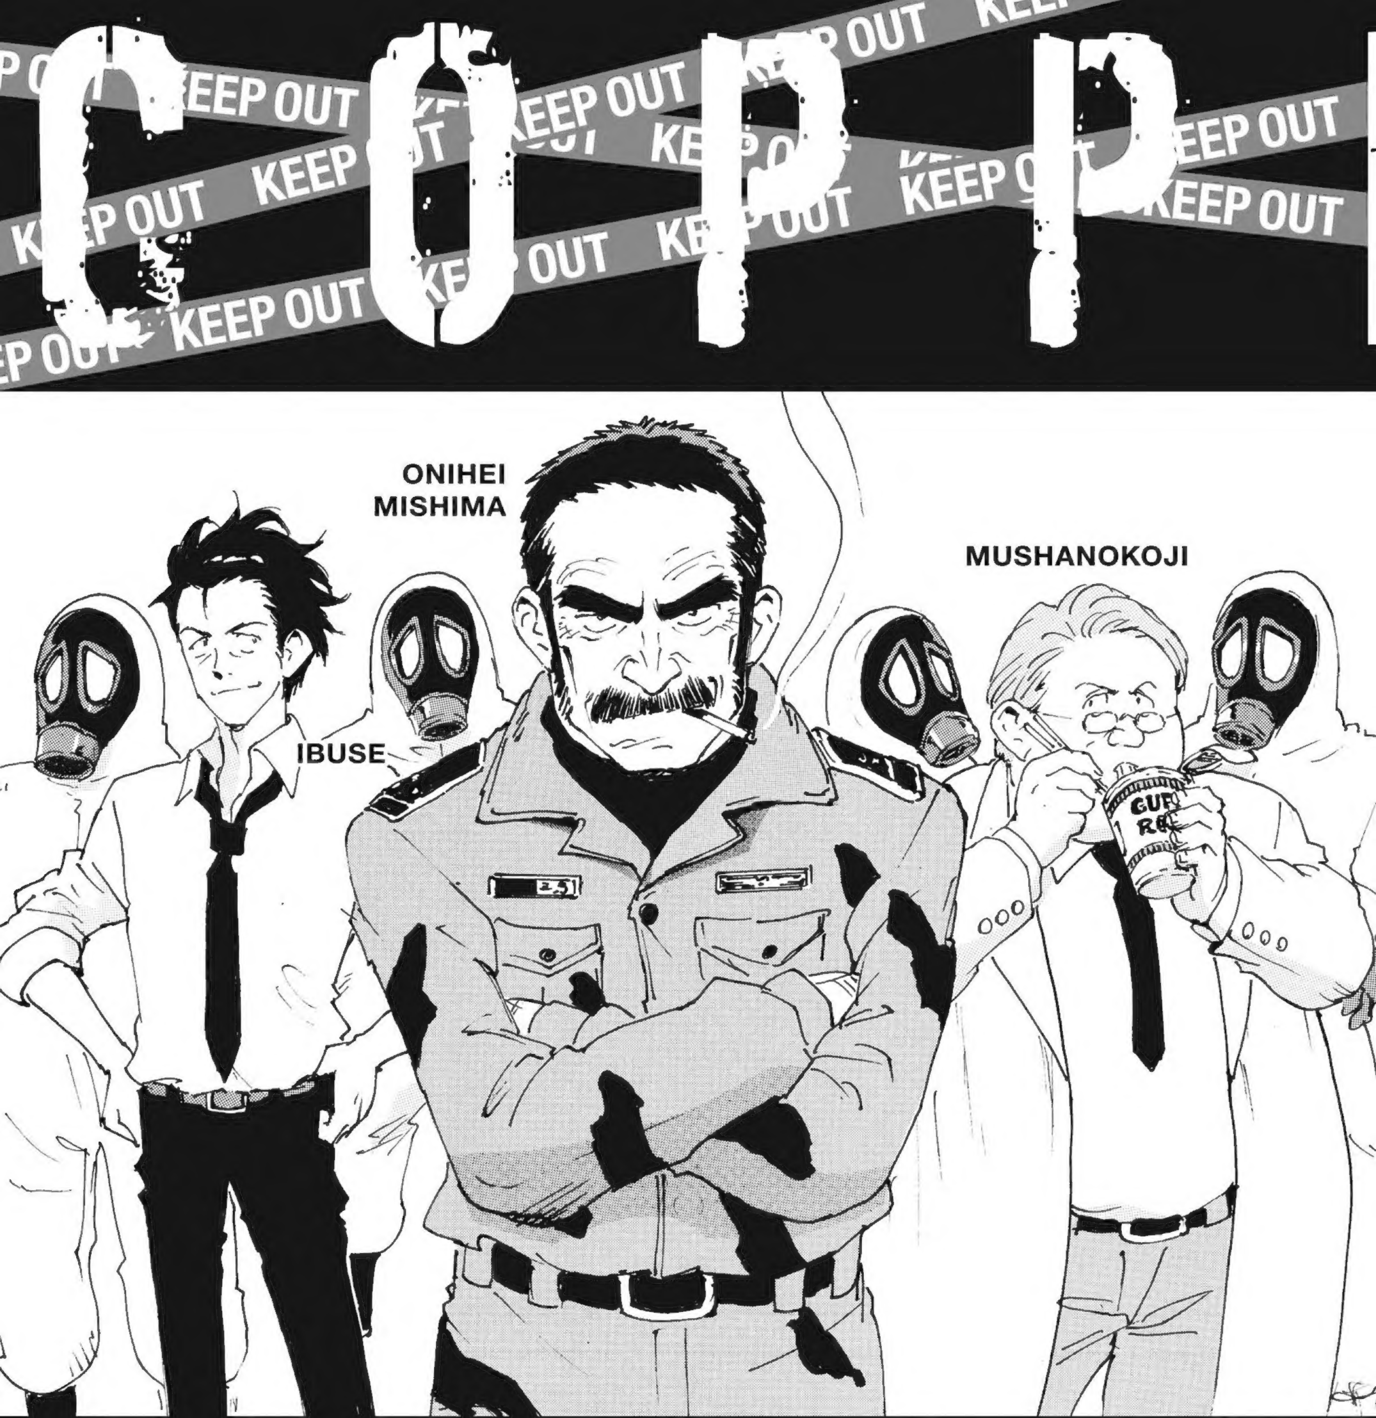
CHARACTER PROFILES

MASAMUNE OUGAI

A cold-hearted man controlling the Japanese government from the shadows as Chief Cabinet Secretary. He wants to capture Aoi Fukasaku in order to secure the means to create more complete Coppelion. When Ibara and the others refused to hand Aoi over, he accused them of treason, and announced that they would be bombing Tokyo if the Coppelion don't comply.

SHIBUYA AREA SURVIVORS

The survivors who'd been living in Shelter 109, Shibuya. Now that contaminated water has flooded their shelter, they're determined to finally escape Tokyo, and are heading to Haneda with Ibara and company. There are 55 survivors in all.



GROUND SELF-DEFENSE FORCE 3RD DIVISION

The many faces of the JGSDF unit to which the Coppelion belong. They were placed in charge of the Tokyo survivor evacuation plans. Onihei Mishima, the division commander, is also vice principal of the special JSDF technical school the Coppelion attended. Assisting Mishima are Ibuse, chief engineer Mushanokoji, and many more, who have been acting as backup for the Coppelion as they carry out their duty. However, due to Secretary Ougai's scheming, they're about to be shipped off to the Kazakhstan war...?!
